1950s

Practical Idealists pioneered
the Jaycee Movement in Hong Kong

In late 1940s, Hong Kong was recovering from the Second World War. There were urgent need and great opportunity for local community leaders to contribute to its social and economic development. The Jaycees thus found their role in the making of Hong Kong.

A group of dynamic young men, of various nationalities and background, were inspired by Junior Chamber International to form the Hong Kong Junior Chamber (Jaycees).

With unbounded enthusiasm and tireless efforts, those pioneer Jaycees worked hard in different community projects and training programmes, and participated in a series of international meetings, it opened also its first office in the Hong Kong Bank building.

Assessing the needs of the society then, these young men put ideas into action, projects were put in hand which aroused civic consciousness among young people here. A novel project was the timely setting up of more than 30 children's libraries, including portable and mobile van libraries. This was a most prominent achievement much appreciated by the public.

The first children's library was established in 1952 at the War Memorial Centre in Wanchai, followed by the ones in Shek Kip Mei and Yuen Long (Nixon Library). In 1955, Hong Kong Jaycees donated the first mobile Van Library to the Social Welfare Office under the Chinese Language Department. As a result, thousands of children were given the chance to read and learn, The success of the project led to the first award for the Hong Kong Junior Chamber in the Melbourne World Congress in 1952. The children's library project was further developed into a scholarship program, helping those who wanted to learn.

Side by side with civic projects, there was keen interest in business pursuits too. The Jaycees held its first trade exhibition in Melbourne in 1952, and repeated the project elsewhere until the territory stepped up its official presence at numerous trade and industrial exhibitions in the years that followed.

In a move to broaden their vision and widen their horizon, pioneer Jaycees were also active in attending various Conferences and Congresses, not only Jaycees but other such occasions as well.

The experience gained led to the success of hosting the first and the fourth JCI Regional Conferences in Hong Kong in 1951 and 1954 (Jayceeasia) which won community plaudits and put the Chamber in the forefront of Jaycees in the continent.

The participation in, and the hosting of, international conferences, added a new dimension to the members and at the same time uplifting the regional exposure for Hong Kong, Hong Kong Jaycees quickly attained high international office. From two Regional Presidents for Asia to JCI President in 1956 and Vice President for Commissions in 1957.

With wholehearted participation and genuine contribution by the Jaycee members, Hong Kong Jaycees earned wide international recognition in a few years. Jaycee activities were seldom out of the press and were extensively reported. And so, Hong Kong Junior Chamber had an accepted place in the community here.

At the same time, with the rapid development of Hong Kong in the 50s, it became apparent that facilities for the training of future executives were almost non-existent. Hong Kong Junior Chamber shown foresight and initiative in promoting institutional development. In particular, it took pride in its contribution to the formation of the Hong Kong Management Association.

Jaycees was therefore called 'catalysts' and 'pacesetters' locally. They were described by The then Governor Sir Alexander Grantham as 'Practical Idealists'-young men with high ideals put into practice by concrete projects for community betterment.

Undoubtedly, Jaycees in the 1950s laid down a solid foundation for the Hong Kong Junior Chamber to go forward with more growth and development while it won wide prestige in the community and high recognition in the Jaycee world.

The members still had the cherished ambition of bidding for a World Congress, a daunting task then without proper facilities and adequate funding. Plans were laid carefully soon afterwards as the new City Hall was being built. The bid won in a contest and so Jaycees had the unusual challenge of holding here the first worldwide meeting. The successful response was sound organization with total membership involvement.

Growth and Development

In the continuation of the relay, Hong Kong Junior Chamber stepped into its further developing stage.

Applying the experiences gained and together with the endeavor of the Jaycee members, the 17th World Congress of Junior Chamber International was, for the first time, held in Hong Kong in 1962. It was a grand and memorable event, widely covered by the media. The use of the whole new City Hall became the talk of the town. The success of which not only reaffirmed the social status of Jaycees in the community, but also was a confidence booster for each Jaycee member.

The handsome surplus from the Congress also led to the formation of the Trust Fund. It gave the Chamber a sound foundation which enabled the Jaycees to carry out many projects for community development with the confidence and helped it eventually to buy an office.

With the continual injection of new blood, Hong Kong Junior Chamber was restructured into a core National Organization Member and 2 affiliated chapters of Victoria and Kolwoon Jaycees in 1965.

JCI Regional Conference was hosted again in 1966.

To spread the Jaycee spirit, Jaycee Week program was also launched in the 60s to promote Jaycees to the public The first Chinese speaking chapter (Peninsula Jaycees) and the first all lady chapter (Hong Kong Jayceettes) were then formed in 1969.

The coming together of members from various backgrounds provided the impetus for a diversification of community projects.

The Annual Dragon Seed Races shared our concern for the boat people in the Kowloon typhoon shelters.

The Miss International Goodwill Contest, and the later Miss Hong Kong Contest in the 60s were first initiated by the Jaycees and became an international friendship program which promoted the international goodwill and enhanced cultural exchange of Hong Kong.

The addition of more members and more projects, called for better communication, co-operation and administration. The introduction of management course and projects such as Golden Anniversary Ball played an important role in answering to the needs.

Through such projects in 1960s, Hong Kong Junior Chamber became more concerned with membership development and began to strive for more opportunities in leadership training and to step up work for betterment of the community.

Many the First and Meaningful Projects in...

Stepping into the decade of the 70s and after the celebration of the Silver Jubilee Anniversary, it marked the beginning of an expansion in chapters and rapid increase in international awareness of their high standard of administration activities.

It was a memorable period which had many encouraging rewards and meaningful projects carried out. Five more chapters were formed. JCI Asia Pacific Conferences were again hosted in Hong Kong in 1972 & 1979.

In 1974, during the World Congress held in Auckland, Hong Kong Junior Chamber won the first LOM Award and the JCI Presidential Award and the JCI Presidential Award of Excellence in NOM management.

Three years later, Hong Kong Junior Chamber was awarded the JCI Presidential Award of Excellence for Outstanding Achievement in Chapter Extension with an increase of 25%, and the JCI Presidential Award of Excellence for Outstanding Achievement in Growth with an increase of over 50% in membership in the year of 1979.

The Jaycee owned Chamber Office was opened in the year 1977 with the help of the Trust Fund, which further enhanced the sense of belonging of members in the Jaycee family.

Many well-known projects were initiated and received wide publicity. To name a few:

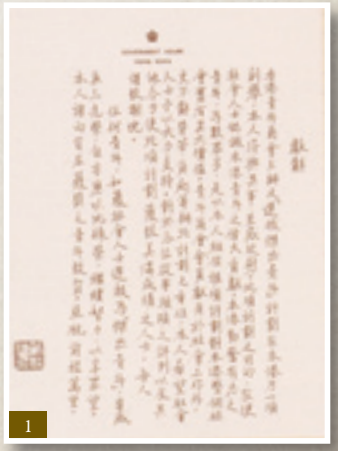

- The first 'Outstanding Young Men Award' was launched (forerunner of the 'Ten Outstanding Young Persons Selection' (TOYP) program which received increasing support and commendation from the public until now).
- The 'Exchange program' in 1971 was the first Youth Voyage which deepened the cultural exchange and understanding between Hong Kong and Japan.
- The first 'Solar Heating System' installed in Wu Kai Sha Youth Camp received the first LOM award in JCI World Congress.
- The much acclaimed 'Earth Population Awareness Program' which propagandized the slogan: 'One is cute; Two is ideal; Three is too much for the bill, Four breaks the family quilt' was adopted by The Family Planning Association as a slogan for family planning education program.
- The "Pop Folk" Concert in those days was the only outdoor concert attracted the youths in Hong Kong.
- The 'Eye Care Campaign' and 'Kidney Donation Campaign' etc. projected the importance of health.

1980s

Chanllenging Decade...

The Jaycees movement in the 80s was confronted with many challenges but at the same time opened up many new and exciting opportunities.

More LOMs were added to the Jaycee family in the 80s, increasing the total membership to over 1,300 and 19 chapters, in which two chapters — Macau Jaycees and Hou Kong Jaycees in Macau— formed the Macau Jaycees and affiliated with JCI as an independent National Organization Member at the end of 1988.

With more energetic young persons joining the Jaycees, many meaningful and innovative projects were held, such as 'Young Scientists Awards', 'The International Children Drawing Competition & Exhibition', 'Chunk-Click and Go', 'Spread the Lights', 'Good Children Awards', 'Courtesy Campaign', 'N.T. Regional Outstanding Student Selection' and 'Road Safety Campaign' etc.

There were also honorable and glamorous moments for Hong Kong Junior Chamber in the 80s. Senator Jennifer Yu was elected as the first Chinese Lady World President for 1988. Four TOYP awardees of Hong Kong were separately honored as recipients of the Outstanding Young Person of the World Award during the JCI World Congresses in the years 1983, 1984, 1985 and 1988. Furthermore, three lady National Presidents were elected, and led the Hong Kong Junior Chamber of Commerce in 1983, 1987 and 1989 respectively.

Approaching the end of 1980s, Hong Kong Junior Chamber was faced with many public issues as did the community at large. Even so, the Hong Kong Junior Chamber still pressed on with their mission of community involvement and played an important role as training organization for young people.

Hong Kong Junior Chamber had the honour to be invited to participate in the first 'Youth Rally' of the 'Youth Festival' in Dec. 1989. Relationship with outside youth organizations and Government was further strengthened and the image of Jaycees in the eyes of the public was also kept up.

Scaling New Heights

Entering the nineties - a decade of change and transition - the Hong Kong Junior Chamber continued to uphold its mission of advocating social responsibility among young people. In the first-ever direct election in Hong Kong in 1991, the "One Plus One - Support Direct Election" campaign was organized by all 17 local chapters, once again marking the Jaycees' active participation in civic affairs.

In 1993, the Hong Kong Junior Chamber hosted the JCI World Congress, an event that attracted more than 6,000 delegates from over 100 countries around the world. 30 years had elapsed since the Hong Kong Jaycees last hosted the World Congress in 1962 with wide acclaim.

The decade of the nineties also witnessed a series of improvement programs within the organization. With funding support from the Hong Kong Junior Chamber Trust Fund, a new office in Sheung Wan was acquired in 1990 to provide a more spacious training and meeting facility for the Junior Chamber's 1,500 strong membership. The "National Business Network" (NBN) and the "Training and Development Committee" (TDC) were subsequently established to offer a wider scope of networking and development opportunities for the members.

Since 1996, the Hong Kong Junior Chamber has been actively involved in the "Right Decisions Program". The project, originated by .JCI and executed on a worldwide level, promulgates the importance of youngsters in making the right choice for their actions. The ''Right Decisions Program" has been implemented in primary and secondary schools since 1998.

2000s

Millennium Decade

Entering the millennium, the whole world continued to change and entered a digital era. The JCI started electronic Bid Book in 2003 and JCI Hong Kong fully adopted the e-Bid Book in 2005.

JCI also changed the logo and name among nations to build up a better branding. To align with the resolution in the JCI Copenhagen World Congress in 2003, the HKJC was renamed into JCI Hong Kong in 2004.

To accommodate the increase in the JCI Hong Kong members, an Office Purchase Ad hoc Committee was formed in 2000. With the great support from the Hong Kong Junior Chamber Trust Funds, new JC chamber office in the Seaview Commercial Building, Connaught Road West was purchased in 2004. Also in 2004, Hong Kong Junior Chamber Foundation (the former Hong Kong Junior Chamber Trust Fund) was established which aims to effectively manage the trust funds and financially support the JCI Hong Kong and its chapters.

After Hong Kong was handed over to the People's Republic of China in 1997, JCI Hong Kong firstly co-organized Youth Exchange Program with other youth organizations since 2006, so to strengthen the young people about the understanding of the current situation of Mainland China. In 2008, JCI Hong Kong started to work with China Youth University for Political Sciences, to organize a National Affair Lectures for our JC leaders in Beijing.

JCI Hong Kong has put effort to achieve better in every aspect. A Guinness World Record for the world's largest mosaic made of paper flower was achieved by TOPY Awardees and hundreds of JC Members in 2001. In addition, JCI Hong Kong was awarded the Most Outstanding National Organization Member Award in 2005.

Since 2008, United Nations Millennium Development Goals (UNMDGs) was adopted as one of the National Flagship Projects which aims to eradicate extreme poverty and hunger, achieve universal primary education, combat HIV/AIDS, Malaria and other diseases, ensure environment sustainability and develop a global partnership for development etc.

In 2010, JCI Hong Kong will bid for the hosting rights of 2012 JCI Asia and the Pacific Conference during Singapore ASPAC.

"We Lead, We Care, We are JCs" was the slogan of 2008 which to emphasis the core value of members of JCI "that service to the humanity is the best work of life".

A Chamber Executive has been recruited to take charge of the daily operation of the Chamber office and improve external communication.

The "2008 Symposium on UNMDG & Global Compact" was held in October, to reinforce the public awareness on the United Nations Millennium Development Goals (UNMDGs). This project was also recommended being one of flagship NOM Projects until 2015.

To strengthen the understanding of the Mainland Affair and to demonstrate the International opportunity that JCI provided to the members, two "National Affairs Lectures" and a series of youth exchange tours were held in Beijing and the Pearl Delta cities respectively and they gained popularity amongst participating parties.

To aid the Sichuan Earthquake victims, a fund raising campaign was organized, and an appeal was made to JCI Headquarter to set up the "JCI Operation Hope- China Earthquake Relief Funds" through which some JCI National Organizations expressed their care and sympathy to the victims. An alliance was formed with other NGOs to care about the Sichuan children victims; and the mission would continue in the years to come.

JC Choir is established to strengthen the bonding between members as well as providing a high standard of entertainment to the members of JCI Hong Kong.

Ten Outstanding Young Persons Selection

青年雙手 創造未來

The Ten Outstanding Young Persons Selection (TOYP) is one of the most prestigious among the many meaningful projects and activities launched by Junior Chamber International Hong Kong. Organized since 1970, it has grown with prominence and recognition by the general public. A total of 286 TOYP Awardees have been honoured in previous selections.

The TOYP Selection aims to give formal recognition to those young people who excel themselves in their professional endeavor and commitments to the community; to promote prominent roles played by aspiring young people in shaping a better future for society; and to provide an incentive to all promising young people who seek further advancement in personal achievements as well as public services.

The TOYP awardees are selected in different areas of specialization, namely Commerce and Industry; Professionals; Civic and Social Services; and Entertainment/Sports/Culture and Art. The awardees' personal achievement in their area of work/interest and contribution to the community both equally constitute the criteria for consideration in the Selection.

Throughout the years, the awardees act as role models, giving inspiration to the younger generation in the development of their personal qualities, and through participation in community services, thus helping them to shoulder the responsibility of building up our society.
