Paris has long been seen as the high fashion capital of the world. But for fashion in time, the world looks to Switzerland ... to the work of craftsmen for whom a watch is both a marvel of precision and a creation for a lifetime.

In the latest Camy collection of dress watches, you can witness the arrival of a new generation of inspired Swiss designs — creations in time for the next decade.

MESSAGE FROM PROJECT CHAIRMAN

"Talent Quest '80" is the first programme in which we have worked together with the Rotaract Council and the Business Management Society of Hong Kong University. It has been a delightful experience and I hope it will pave way to further cooperation in a wider range of social services to the public. Indeed, we have built a foundation upon which future joint contribution to the community can be based.

I would like to take this opportunity to express my sincere thanks to all who have worked together and those who have given us support to make this event a successful one.

Daisy Tsang
Project Chairman
