The National President's Message

In the past 38 years, the Republic of China Jaycees has actively cooperated with JCI in promoting its major emphasis theme, in offering better training programs to the youth in positively involving community services, and in maintaining close ties with other NOMs. It also takes every possible opportunity to serve JCI and all the members of the Junior Chamber.

Last year it donated US$84,000 th JCI for training purpose. And in April this year it sponsored the third and the most important meeting of JCI Stratagy Planning Committee in Taipei. In May it formed one of the biggest groups to attend the Chiang Mai Asia Pacific Conference. And in almost every year it has members serving APDC and JCI. Its reputation alse came from the several world congresses and area conferences it hosted in the past 38 years. Next year, it will big again for hosting the 1993 area conference to get further opportunities to serve the members of the Junior Chamber. Your kind support will be greatly appreciated.

The Republic of China Haycees was established in 1953. Since its establishment, it has become the third biggest NOM in Asia-Pacific area. It is recognized as one of the most active NOMs in the world. Right now it has 159 LOMs and over 7000 individual members.

The NOM's main concerns this year is to strengthen leadership training and community service.

Since the beginning of the year, it has successfylly conducted some nation-wide training programs in public relations, international affairs, speech delivery. Oregan-style debate, and managerial skills. In order to give members better and more systematic training, we are planning to publish more training materials and to secure more qualified trainers.

The community services focus on protection of environment, care for the handicapped, promotion of tradional arts, and interchange of foreigh trade opportunities. Related programs were well arranged and successfully carried out by many LONs around the country.

The TOYP program has long been considered one of the most valuable awards for the youth of this country who have had outstanding achievements before they reach 40. In this year, a world famous overseas Chinese applicant was accepted as one of the TOYPs. This is a big change in TOYP award giving in thes country.

Another Change is in the build-up of the district organizations of the Junior Chamber. In the past years, district organizations never really existed. In this years, district organizations never really existed. In this year, the new constitution on district organizations has been put to force and district officers have been elected in each district conferenec. Starting from 1991, the district organizations will serve as bridges between the NOM and the LOMs.

This is a brief introduction to the Republic of China Jaycees. I hope it will give you some ideas about what is happening in the Republic of China Jaycees and what it has done for its own members and for JCI.

We are proud of our NOM. However, we desird to make it better and are always ready to learn from other NOMs and to receive assistance and supervision from JCI. So we will appreciate any suggestions and comments that you may give us.

Jaycees Week Activity
—— Traditional Mature Adult Ceremony

In ancient China, youngers were expected to become grown-ups when they reached 20 years old. "Mature Adult Ceremony" was meant to distinguish the periods of adolescence and adulthood. In this ceremony, boys would be "capped" and girls were supposed to wear special hairpins to show that they have attained matuney . After the ceremony, these "little adults" should start to shoulder the family and social responsibility so they could become individules to have their lives and devote themselves to benefit the country.

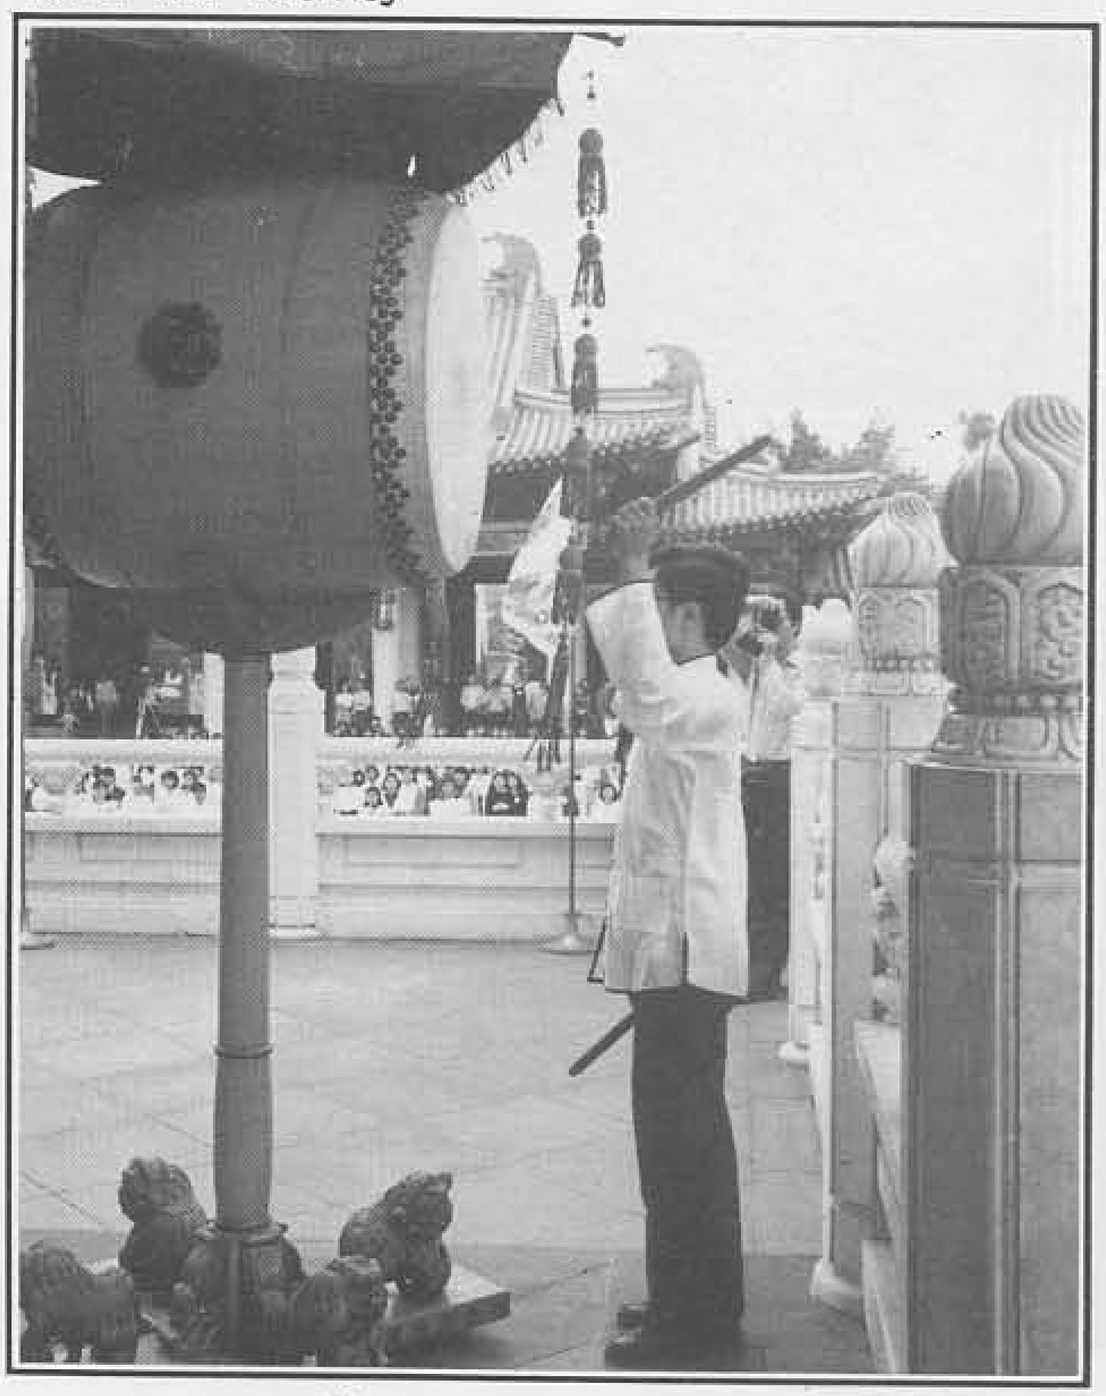

In order to keep the meaningful custom and call for the public to pay attention on good old traditions, in 1990 Jaycees Week, we hold this special activity to guide people a better understanding and do our best to conserve the precious ancestral heritage.

Red stripes were hung on main roads to publicize the activity

The ceromony was unveiled accompanied euphonious Chinese music played with kinds of ancient chinese instruments by students

Mr.Cho Chuang-Huan the Taiwan Governor dlivered a speech at the beginning of the ceremony

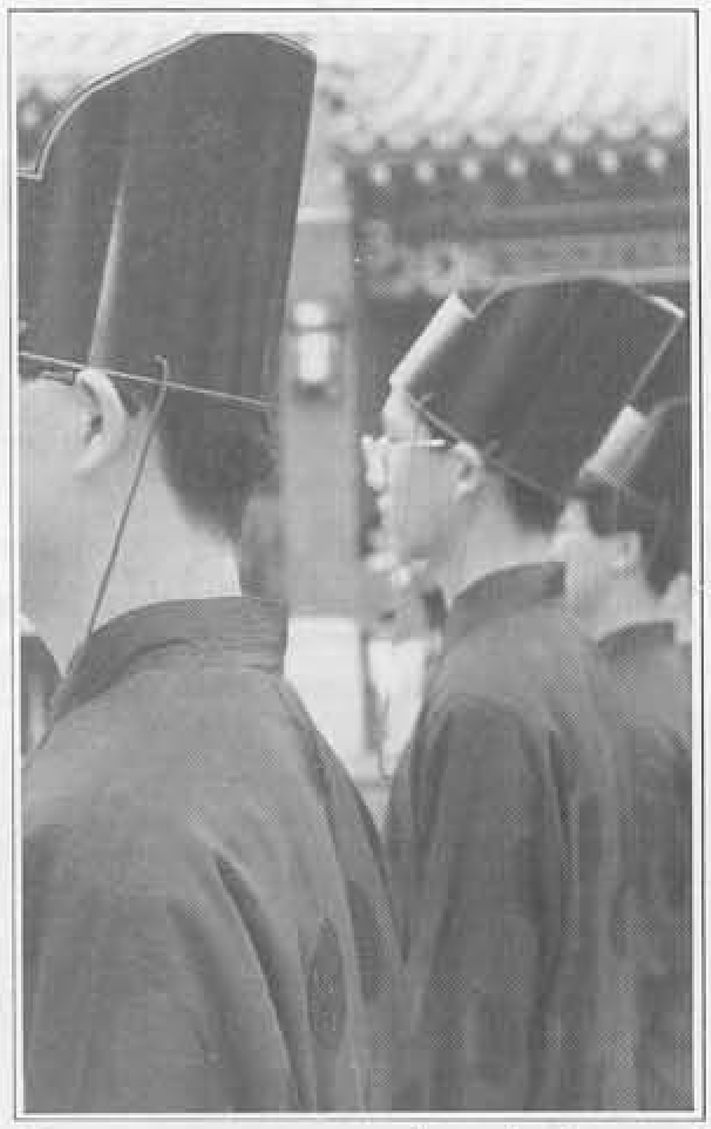

WP Mr. Suncar was invited to attend this ceremony

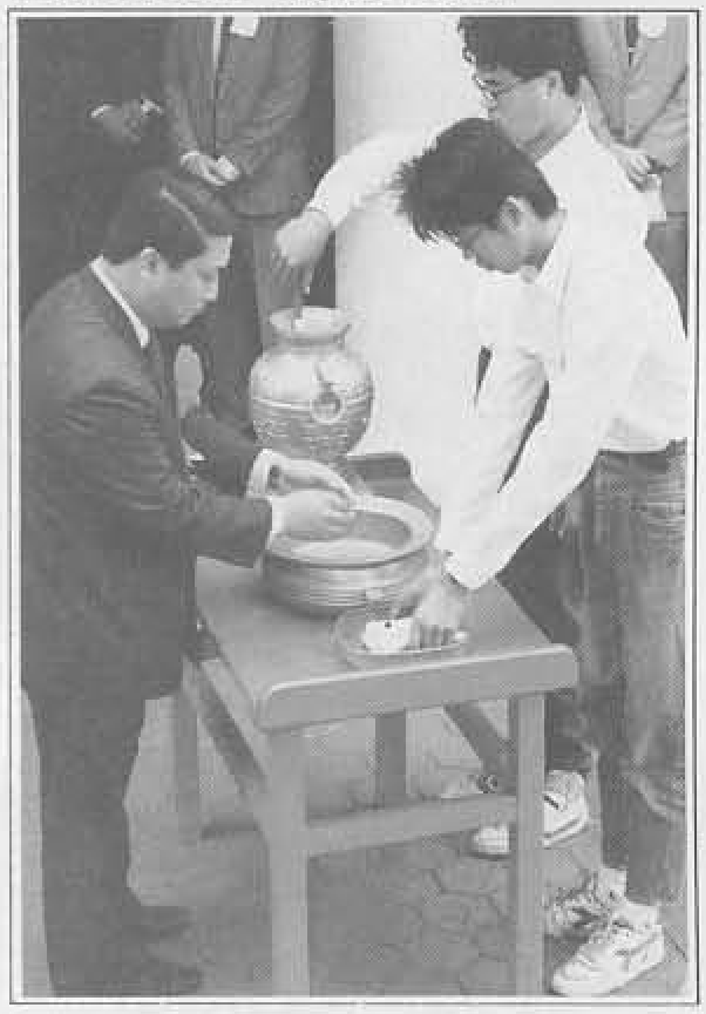

Grils were worn a special hairpin on head as a symbol of maturity.

Taiwan Governor Mr. Cho, as the main officiant presented the offerings to the formost sage Confuclus

Boys were capped and dressed the ancient-style robe.

The participants should wash hands first. It means to cleanse away the secular sins and purify bodies.

The whole activity was lively ›brocasted by TV

十大傑出青年

TEN OUTSTANDING YOUNG MEN

When the whole world is impressed by Taiwan's economic miracle, as Chinese, we not only feel proud that our years' hardship has come to a fruitful harvest, but we also, at the same time, worry about the cropping-up which might inevitably bring some deteriorating influx.

Young people are country's future hope. The purpose of TOYP-electing is multiple. By praising these distinguished young people's achievements in public to affirm their personal contribution to the whole society, furthermore,we wish that they can become a paragon to inspire people positively. To see our society getting more prosperious and to see our people living in a more harmonious life, we need young people to succeed the social responsibitiby generation by generation.

Trainning Programs

TROT is our point of emphasis in individual opportunity. It is meant to cultivate the JC members to become excellemt trainers in a professional way. Those participants can get a certificate of attendance after finishing the whole course, and then they can help developing the Training Program to every JC chapter and providing JC members more chances to get individual potentiality fully developed.
